

GEOGRAPHY 6

Course Description: In this course, students will learn key map concepts, terms, and locations in a Christian concept relating to the Creation; Dispensations of Adam, Enoch, Noah, Abraham, Moses, Christ and Apostles; the Apostasy; and the Renaissance. Civilizations of focus will include the World, Mesopotamia (Israel, Egypt, Assyria, and Babylon), Greece, Rome, and Byzantine Empire, and Europe. Students will learn through the principle approach methodology (researching, reasoning, relating, and recording) while using maps, notebooks, PowerPoints, and atlases. In addition to being able to discuss their learning, students will demonstrate their understanding of these topics through map sketches and bi-monthly tests (written and oral). Some will require a memorization of facts while others will demonstrate depth of understanding in key concepts and how they relate to the Seven Principles of American Christian Education. The most reliable way to receive specific information about course work, including topics and timing, is through the teacher's weekly email. For many students, the most challenging part of class is to memorize the vast amount of information about people, places, and events studied in geography. To support your student, please consider drilling Middle East and European geography, key places, and events connected with these civilizations.

Memorizations: Eastern Hemisphere capitals/countries and locations.
